

Christmas Covid Charity Campaign

As Christmas approached and the lock down showed no sign of relenting, we once again turned our attention to those causes that needed help and donations at this time of year.

In partnership with Dental companies, Henry Schein, TePe, GSK, Colgate and DD, we were able to receive and send out over 7000 toothbrushes and pastes to worthy causes. Some of these we had helped during the first lockdown and some were new to us. All were very grateful for the donation as toothpaste is an expensive item that doesn't get donated and falls low on the priority list of families struggling to put food on the table.

We were able to donate to The Salvation Army, H4All, Colindale Food bank, North London Food Bank, St Luke's Hospice, Marie Curie Hospice, Haven Hospice for children, Norwood, Gift, Sunrise and Sancroft Care homes, Crisis Hillingdon, Chicken Soup Shelter, East Barnet Food Bank, Goods 4 Good and schools to send out to those families in need.

In total, with the donations we made in the first lock down, we have delivered over 19,000 toothbrushes and toothpastes during the Covid Pandemic.

It is our aim to continue to make a difference to those who do not have access to tooth brushing, whilst still maintaining our schools' daily tooth brushing programme.
